EDUCATION

Walchand College Of Engeneering , Sangli   **Sep 2024 – May 2027**
B.Tech - CGPA − 8.71   *Sangli , Maharashtra*

Government Polytechnic College , Solapur   **Aug 2021 – May 2024**
Diploma in Computer Technology - Percentage – 93.20%   *Solapur, Maharashtra*

TECHNICAL SKILLS

Languages: Java(Core & Advance), PHP, JS, HTML, CSS,Android
Web Development: HTML, CSS, JavaScript,basic React, PHP, Bootstrap
Data Structures & Algorithms: Array,String,Sorting,Searching,HashMap
Object-Oriented Programming (OOP): Inheritance, polymorphism, encapsulation, and abstraction
Database Management System (DBMS): SQL, database design, normalization, and optimized queries
API Development: RESTful APIs for efficient client-server communication
Tools & Frameworks: Flutter, Spring Boot, Firebase, Visual Studio Code, Intellij IDEA, Git, Postman

PROJECTS

Travel Website ⤴ / HTML,CSS,JAVASCRIPT,PHP,MySQL   **July 2023**
- Developed a user-friendly travel booking website during a two-month internship.
- Features include user registration, ticket booking, viewing available tours, and ticket cancellation.The platform also provides information about other travel agencies.
- User can only explore information about places and Various Images before confirming Tickets.

Music Player Web App ⤴ / HTML, CSS, JavaScript   **Nov 2023**
- A music player web app is a dynamic platform that allows users to enjoy their favorite tracks with ease. The app features essential controls like play, pause, and the ability to skip to the next or previous tracks.
- Users can adjust the volume using a slider or mute the audio entirely with a simple button click. The interface typically includes a sleek design, showcasing a progress bar that lets users track the duration of a song or skip to a specific part.

Group Chat Web App ⤴ / Intellij IDEA, HTML,CSS,JS,Spring boot   **March 2023**
- A group chat app using sockets is an interactive platform where multiple users can communicate in real-time. When a user joins the app, they can enter their name, which is displayed to others in the chatroom, making it easy to identify participants.
- The app uses WebSocket technology for live communication, ensuring messages are instantly broadcasted to all connected users. Once in the chatroom, users can send and receive messages seamlessly, creating a lively conversation environment.

EXPERIENCE

Web Developer Intern
Dream Technology | June 2023 – July 2023

- Utilized HTML, CSS, JavaScript, and Bootstrap to design and develop responsive and interactive user interfaces. Worked with PHP for back-end integration, enabling dynamic functionality for web applications.
- Collaborated with the team to optimize website performance and ensure cross-browser compatibility.
- Gained hands-on experience in the complete web development lifecycle, from design to deployment.

ACHIEVEMENTS

JSPM's Rajarshi Shahu College of Engineering, Pune   **Feb 2025**

- Hackathon :- Awarded 2nd Runner-Up in a prestigious hackathon at JSPM's Rajarshi Shahu College of Engineering, Pune, recognized for creativity, problem-solving, and technical skills.
